**Re: In the Matter of Reporting Requirements for U.S. Providers of International
Telecommunications Services, IB Docket No. 04-112**

Dear Ms. Dortch:

On November 1, 2005, Karen Zacharia and I met with Emily Willeford of Chairman Martin's office to discuss issues in this proceeding.

We reviewed Verizon's position in this docket and our position that the Commission should eliminate or significantly streamline the international traffic reporting requirements. The market for international services in the U.S. and foreign markets has become much more competitive since the rules were adopted, thus setting the stage for a decrease in regulatory requirements. We discussed the significant burdens these reports place on Verizon and other U.S. international carriers and the ways that the Commission can meet its regulatory goals without such burdensome reporting requirements.

One electronic copy of this Notice is being submitted to the Secretary of the FCC in accordance with Section 1.1206 of the Commission's rules.

Respectfully submitted,

/s/ Jacquelynn Ruff
